# KENYA 2024 BUILD TRIP

# Serving with Paradigm Foundation

---

## LOVE. BUILD. SERVE.

Our overall goal as a ministry is to encourage others through service and to be a light as we are called in impoverished communities in the name of Jesus. No build experience necessary, just a heart to serve.

### *What you can expect:*

- Immersion into a new culture
- Experience the local church in global context
- Serve a family in need
- Learn more about poverty
- Learn something about yourself
- To make new friends
- Depart with way more than you gave.

It's so much more than a home. Our hope is that through a stronger physical foundation, the widows and orphans we serve will also strengthen their spiritual foundations as their local church continues to walk and encourage them after the build is complete. So while we are building homes, we hope to also be building relationships and ultimately, pointing those in need to their creator and ultimate provider, Jesus.

**"For every house is built by someone, but God is the builder of everything." Hebrews 3:4**

## Your Time in Africa

---

Camp Brethren Ministries (CBM) in partnership with David's Hope International will host the Paradigm Foundation team while serving in Eburru, Kenya. Pastor Steve and Mary who started CBM will serve alongside the team, sharing the in's and out's of daily life in Kenya. By the time you leave you will have a new perspective and appreciation for how others live around the world all while giving back in the name of Jesus.

The team will stay in secure huts (as seen to the left) that include beds, indoor plumbing and showers. Because CBM is located on top of a mountain, the threat from wildlife typically associated with Africa is not a concern. In full transparency, things do wander up from the valley time to time, but it is highly uncommon - so no need to worry!

The team will be served three meals a day in the dining hall located next to the huts. (also pictured). When we aren't at camp, we will be in the local community doing home visits, working on the build site or serving at the primary or high school. For those with a background or interest in medical ministry, there will also be an opportunity to serve in the local medical clinic, if you'd like.

The other thing to note, most Kenyan's are able to speak English so there is not a big language barrier and you will have the chance to clearly present the Gospel and make some new friends.
