KENYA 2026 BUILD TRIP

Serving with Paradigm Foundation

LOVE. BUILD. SERVE.

Our overall goal as a ministry is to encourage others through service and to be a light as we are called in impoverished communities in the name of Jesus. No build experience necessary, just a heart to serve.

What you can expect:

- Immersion into a new culture
- Experience the local church in global context
- Serve families in need
- Learn more about extreme poverty
- Learn something about yourself
- To make new friends
- Depart with way more than you gave
- Experience God's creation by staying above the Great Rift Valley and through safari.

It's so much more than a home. Our hope is that through a stronger physical foundation, the widows and orphans we serve will also strengthen their spiritual foundations as the local church continues to walk and encourage them after the build is complete. So while we are building homes, we hope to also be building relationships and ultimately, pointing those in poverty to the ultimate provider for all their needs, Jesus.

"For every house is built by someone, but God is the builder of everything." Hebrews 3:4

Ministry Accommodations

Your Time in Africa

Camp Brethren Ministries (CBM) in partnership with David's Hope International will host the Paradigm Foundation team while serving in Eburru, Kenya. Pastor Steve and Mary who started CBM will serve alongside the team, sharing the in's and out's of daily life in a village in the bush. By the time you leave you will have a new perspective and appreciation for how others live around the world all while giving back in the name of Jesus.

The team will stay in secure huts (as seen to the left) that include beds, indoor plumbing and showers. Because CBM is located on top of a mountain, the threat from dangerous wildlife, typically associated with Africa, is not a concern. In full transparency, things do wander up from the valley time to time, but it is highly uncommon - so no need to worry!

The team will be served three meals a day in the dining hall located next to the huts. (also pictured). When we aren't at camp, we will be in the local community doing home visits, working on the build site or serving at the primary or high school. For those with a background or interest in medical ministry, there will also be an opportunity to serve in the local medical clinic, if you'd like.

The other thing to note, most Kenyan's are able to speak English so there is not a language barrier and you will have the chance to make some new friends.
